

YOU ARE INVITED!

tweet us @usgthinkers

shaping healthy cities for and with children

Sunday 11th February, 9:00 -11:00am
Room 406 at the venue of the Forum Kuala Lumpur Convention Center

Success to create safe, inclusive, accessible, green and **public spaces for all**, requires us to address the importance of childrens' health and well-being in cities. Healthy cities for children need to embrace the 'Right to the City' concept and ensure that no one is left behind where all children have the '**Right to Play**'.

www.urbansynergiesgroup.org

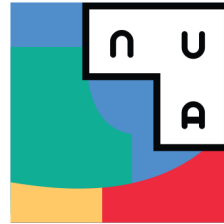

This side networking event is a platform for knowledge exchange and networking amongst stakeholders that **enable tangible actions** on a grassroots level and a city level worldwide committed to improving the health and well-being of the next generation.

Voices for change on the panel include:

- **Dr. Luisa Bravo** - President of City Space Architecture
- **Ms Sudeshna Chatterjee** - Board member of the International Play Association
- **Ms Bryony Cooper** - Sustainable Transport Policy Expert as Moderator
- **Ms Joyati Das** - Child Rights Advocate and Associate, Future Cities, Melbourne Sustainable Society Institute, University of Melbourne
- **Dr. Manfredo Manfredini** - University of Auckland
- **Mr Gregor H. Mews** - Founder & Director, Urban Synergies Group and University of Canberra
- **Dr. Hendrik Tieben** - Chinese University of Hong Kong

In order to harness the **collective wisdom** in the room the focus will be on the engagement with the audience. Together we will workshop tangible actions that can help to drive change, empower children and adolescents.
